

Elleigh Morris

Associate Director of Operations, Regulatory Compliance and Finance

BACKGROUND

- Project management for pharmaceutical industry clients

SPECIALTY

- Project management and client services

EXPERIENCE

- Client relations for medical communications
 - Congress planning and sponsorship execution
-

Elleigh Morris came to Greenleaf with a background in client services, event planning, and project management and experience working with the pharmaceutical industry that she applies in her role as an Associate Director of Operations at Greenleaf Health. She previously worked at Caudex, part of IPG Medical Communications, where she was responsible for managing medical communications campaigns for clients with a focus on peer-to-peer engagements. Before that, she assisted with the planning and management of pharmaceutical congress sponsorships with various associations internationally and domestically.

Elleigh's educational background has a significant emphasis on project management; she earned her Project Management Professional Certification (PMP) in the Fall of 2021. Elleigh graduated from Elon University with a B.S. in business administration.
